

AM1 BLADE ANGLE METER

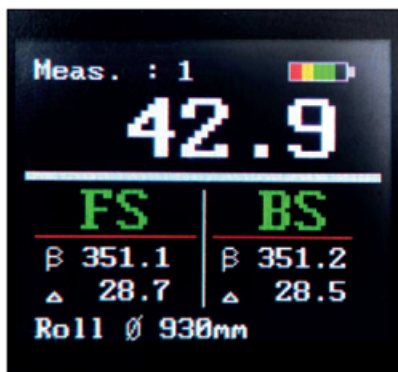

THE MOST ADVANCED DOCTOR BLADE ANGLE METER IN THE WORLD

AM1 blade angle meter is developed for easy and accurate doctor blade angle measurements. Online angle display together with accurate sensor and optimal signal filtering allow fast and accurate measurements at once without any repetitions or averaging.

The blade angle meter has a measurement mode for angle difference and absolute angle.

The blade angle meter is suitable for all types of doctor blades and blade holders including double doctor second blades.

Measuring head is equipped with LED-light which helps measuring in dim light.

- Clear colour display shows front- and backside measurement values at the same time
- Measurement memory (100 readings) allows faster measurements and no notes are needed
- Roll diameter compensation value can be set in 10mm increments through easy program menu navigation
- AM1 Angle Meters resolution is $\pm 0.1^\circ$ and the measurement range is 360°

Properties:

- NiMH rechargeable battery
- Resolution 0.1 degrees
- Roll diameter compensation settable in 10 mm steps
- Measurement memory for 100 readings (50 frontside, 50 backside)
- On-line measurement value display
- Oled colour display

Delivery includes:

- Case for transport
- Display unit
- Sensor head with cable
- Battery charger
- User manual
